

DIVINE BIRASA ISHIMWE

Software developer

✉ divinebirasaishimwe@gmail.com  <https://www.linkedin.com/in/divine-ishimwe-birasa-508ba31a2/> ☎ +250784981935

I am an energetic , ambitious person who has developed a mature and responsible approach to any task that i undertake, or situation that I am presented with. As a University student in software engineering , I am excellent at working with others to achieve a certain objective on time and with excellence

Experience

● Comprehensive Staffing Resources - Frontend Intern

2025

Currently, I am a frontend intern at Comprehensive Staffing Resources, where I am gaining hands-on experience in building well-designed and responsive real-world websites using Next.js and SCSS. This role enables me to refine my skills, apply industry best practices, and continuously learn in a professional environment, further strengthening my expertise in frontend development.

● Umurava- Frontend Intern

2024

- During the internship at Umurava as a frontend developer intern I used Next.js and Tailwind to contribute to different real world projects .I gained more knowledge in different frameworks like Tailwind and had the opportunity to work on various Figma designs, which enhanced my design skills.

● SheCanCode Bootcamp -Mobile development

2024

- During my mobile app bootcamp, I had the opportunity to thoroughly explore various technologies used in mobile app development. These included frameworks like React Native and tools such as Firebase for backend services. As part of the bootcamp, our team embarked on a significant project known as a capstone project. This project aimed to develop a mobile application with real-world impact on our community. It was a pivotal experience, transitioning from learning to practical application, with the ultimate goal of making a meaningful contribution.

● SheCanCode Bootcamp - Frontend development

2023 - 2024

- During the boot camp, I had the opportunity to delve into various front-end technologies such as React.js, Node.js, and Tailwind CSS. These tools enabled me to create engaging user interfaces and dynamic web applications. As part of the internship culmination, my team and I undertook a significant project known as a capstone project. This endeavor was aimed to develop a solution with tangible benefits for our community. It was a pivotal experience, transitioning from learning to practical application, with the ultimate goal of making a meaningful impact

2022

Awesomity Lab - Software development Internship

- During the internship, we gained insight into the Software Development Life Cycle (SDL) and the process of software development. Our training included Bootstrap for front-end development, enabling the creation of visually appealing user interfaces, and PHP for backend development, facilitating server-side logic and database interaction

Technnovation Girls- Trainee

2022

- During this virtual fellowship, we worked as a team and we designed a mobile application called No-queue app for the 2021 Technovation Girls season.

Education

African Leadership University

2024-Present

- I'm currently pursuing Software Engineering at university, focusing on software engineering and leadership skills. This advanced education is helping me build complete web applications and develop essential team management abilities for my future career

High School - SoS Technical High School

2018-2021

- I pursued software development in high school, focusing on front-end and back-end development. We learned HTML, CSS, and JavaScript to create websites' visual and interactive parts. On the back end, we covered server-side languages like Python, and database management with SQL and NoSQL. This course provided a solid foundation for building complete web applications, preparing me for future studies and a career in software development.

Certificates

SheCanCode Bootcamp - Trainee

CERTIFICATE OF ACHIEVEMENT

- Creating simple mobile applications using react native

CERTIFICATE OF ACHIEVEMENT

- Creating front-end applications using React.JS framework .

Stanford University's Code in Place

CERTIFICATE OF COMPLETION

- Console programming and using Karel Robot

Technovation Girls

CERTIFICATE OF COMPLETION

- A member of technovation Rwanda team called DRAX. We developed a mobile application called No-queue app for 2021 technovation girls season.

Awesomity lab

CERTIFICATE OF COMPLETION

- Completing internship period at awesomity lab

- **Sos children's village international**
YOUTH ADVOCACY, ENTREPRENEURSHIP AND LEADERSHIP TRAINING
 - Making digital citizens and advocates
- **Rwanda Coding Academy**
FUTURE SKILLS BOOTCAMP
 - Participated in the Future skills BootCamp.
- **I am science**
CODING SKILLS
 - How to use basic coding skills to solve problems in everyday life.
 - Teamwork while conducting experiments
- **Kids Tech Bootcamp**
LOVE AND HANDS
 - Volunteering during the 3rd edition of the kids tech bootcamp

Skills

- UI/UX Designing
- HTML/CSS/SCSS
- Tailwind
- ReactJS
- ReactNative
- Bootstrap
- Javascript/typescript
- Nextjs
- Problem-solving
- Creativity
- Communication
- Computer Literacy
- Time Management
- Technical Knowledge
- Adaptability
